Product Description

220V Electric Mini Fuel Station with Automatic Shut off

Product Description:

The Model C1 mini fuel station is equipped with an automatic nozzle, which ensures a clean and hassle-free refueling experience. The nozzle type is designed to prevent spillage and wastage, ensuring that you get the most out of your fuel. Additionally, the electric power source ensures that you don't have to worry about running out of fuel or refilling a tank.
This mini gas station is perfect for small businesses, farms, or personal use. Its compact size means that it can fit in tight spaces, making it ideal for those who don't have a lot of room to spare. The Mini Fuel Station is also easy to operate, with simple controls that allow you to quickly and efficiently refuel your vehicles or machinery.
Whether you're looking for a mini gas station for your farm equipment or a mini fuel station for your small business, the Model C1 is an excellent choice. Its automatic nozzle, electric power source, and compact size make it a convenient and efficient solution for all your refueling needs.

Features:

Product Name: Mini Fuel Station
Nozzle Type: Automatic
Capacity: 1-8CBM
Flow Rate: 40-60L Per Minute
Dimensions: Customized
Voltage: 220V
This mini fuel station is a mobile gas station that comes with an automatic nozzle, a capacity of 1-8CBM, a flow rate of 40-60L per minute, and customized dimensions. It operates on 220V voltage and can be used as a Fuel Mobile Dispenser.
