Product Description

1000L to 6000L Mini Fuel Station with Auto Shut Off Overfill Protection

Product Description:

One of the standout features of the Mini Fuel Station is its versatility. It is compatible with gasoline, diesel, and new energy fuels, making it a great option for a wide range of vehicles. Whether you're filling up a car, truck, or SUV, this mobile fuel station has got you covered. The Mini Fuel Station is also highly customizable when it comes to its dimensions. This means that you can choose the size and shape that best suits your needs, whether you need a compact fuel dispenser to fit in the trunk of your car or a larger, more robust option for your fleet of trucks.

When it comes to safety and reliability, the Mini Fuel Station is top-notch. It is UL listed and CSA certified, meaning it has been rigorously tested and meets the highest industry standards for safety and performance. Additionally, the Mini Fuel Station comes equipped with a 6-foot hose, allowing you to reach even the trickiest fueling locations with ease.

Overall, the Mini Fuel Station is the ultimate mobile fuel station for businesses and individuals who need a reliable, efficient, and safe way to fuel up on the go. Whether you're a delivery driver, a construction worker, or simply someone who wants to be prepared for anything, this fuel mobile dispenser is the perfect solution.

Features:

Product Name: Mini Fuel Station

Flow Rate: 40-60L Per Minute

Capacity	1-8CBM

Applications:

The Virette Mini Fuel Station is suitable for a wide range of applications including gasoline, diesel and new energy. It has a voltage of 220V and has a capacity of 1-8CBM. With a price range of 1000-5000USD, this product is affordable for small businesses and individuals who need a mini fuel station.

The Virette Mini Fuel Station is perfect for use in various occasions and scenarios. It is an ideal solution for small construction sites, mining operations, farming, and transportation. The fuel station can be placed in remote locations where there is no gas station nearby. It is also perfect for businesses who need to fuel their vehicles on-site, without the hassle of driving to a gas station.

The Virette Mini Fuel Station is easy to install and can be set up in just a few hours. It is also easy to operate, with a simple user interface that allows for quick and easy fuel dispensing. With a delivery time of only 20 days, this product is perfect for businesses who need a fuel station quickly.

In conclusion, the Virette Mini Fuel Station is a game-changer in the field of fuel dispensing. Its compact size, affordability, and versatility make it an ideal solution for small businesses, remote locations, and anyone who needs a mini fuel station. With its automatic nozzle type, voltage of 220V, and capacity of 1-8CBM, this product is perfect for dispensing gasoline, diesel, and new energy.
